CURRICULUM VITAE

Joe Vesey

415 Mulberry Lane
Boynton Beach, FL33435
(222)-435-7155
j.vesey@emailaddress.com

Job Objective

Career minded Instrument Engineer seeking position with reputable company where my skills can be beneficial and put to good use.

Work Experience

Instrument Engineer
BP, Boynton Beach, FL
August 2005 - Present

Duties:

• Provided technical support to design team and performed all repairs in instrument devices and control systems.
• Designed equipment, developed plant specification and site in accordance to new and upcoming technology.
• Investigated for root cause in case of any instrument equipment related incidents.
• Managed a small refinery instrumentation project such as estimated cost of project, prepared design and executed it.
• Documented all design specifications and procedure for process.

Instrument Engineer
DigitalGlobe, Boynton Beach, FL
May 2000 – July 2005

Duties:

• Provided technical support to instrument engineering activities in refinery.
• Maintained equipments and prioritized their repair according to need.
• Evaluated project and ensured that engineering practices were in compliance with refinery practices.
• Designed engineering process, documented process and implemented changes in refinery.
• Coordinated with refinery process control group and identified areas where improvements

could be made.
• Identified areas where cost could be reduced and efficiency could be increased.

Summary of Qualifications

- Remarkable experience in Industrial instrumentation and control systems
- Sound knowledge of PLC installation and Chemical processes
- Exceptional knowledge of industry codes and regulations
- Familiarity with instrument design, specification and documentation
- Proficient with instrument engineering software and standard desktop
- Ability to troubleshoot instruments and Safety Instrumented Systems
- Ability to interpret electrical schematic and technical drawings

Education

Medaille College, Buffalo, NY
Bachelor's Degree in Electronics Engineering

SAMPLE 2

GNANAVEL S #65, Narasimmalu naidu st,
Trichy-620008, Tamilnadu,
India.
mailto:gnvelrock@gmail.com
Mobile no: +919880735496

PROFESSIONAL GOALS
A passion for knowing new concepts and to work in the areas of high knowledge environment and gain expertise in the area and thus make myself an asset to the Organization.

WORK EXPERIENCE

Protocol Automation Technologies Ltd, Bangalore Feb 2007 – Till date
Working as a project engineer.

Job Responsibilities:
• Calibration and Commissioning of Field instrumentation like Control valves, Pressure gauges, Temperature gauges, switches, actuators, digital and analog indicators, level transmitters, transducers, boilers and turbines for the plant.
• Loop Checking of PLC's, RTU's, SCADA and DCS projects.
• Developing HMI Designs according to the requirement of the Plant
• Assigning Object paths to the I/O's of PLCs with respect to their Design in HMI
• Assigning settings for those PLCs through OPC controllers

• Commissioning the PLCs along with the OPC controllers in the Plant
• Checking out the Remote Access of the HMIs connected to OPC Server
• Analyses problem areas and recommend practical cost effective solutions
• Generating Time Sheets. I/O List, Batch Reports & QC Reports

PROJECTS DONE
? HMI Designing & Commissioning for Oil and Natural Gas Corporation (ONGC), Oil & Gas plant, Hazira.
? HMI Designing & Commissioning for Shell, Gas Plant, Surat.
? HMI Designing & Commissioning for Metal Treatment Plant in Indwel Metal Treaters, Viralimalai, Pudukkotai.
? HMI Designing & Commissioning for Steel Plant at TATA, Jamshedpur.

ABB Global Services Limited, Bangalore Feb 2007 – Apr 2008
Worked in contract basis as a System engineer from PAT Ltd., Bangalore.

Job Responsibilities:
• Development of logical programs in ladder logic and sequential flow chart
• HMI Design, Development & verification
• Development of Dynamic elements
• Testing the functionality of dynamic element by connecting through AC800M controller and AC450 controller.
• Checking out the Remote Access of the HMIs connected to OPC Server
• Analyses problem areas and recommend practical cost effective solutions
• Generating Project rules and guidelines, HMI progress monitoring, Quality assurance check list, I/O List, Query database, weekly timesheet and consolidated time sheet.
• Backend verification on expressions
• Online debugging while converting
• Testing with old module

PROJECTS DONE

INOPC, ABB – Bangalore

? HMI evolution and Logical development of Shed Gum Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of Elgin Franklin Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of Inland Empire Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of BG-Armada Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of FPSO-Saipem Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of Sendje Cieba Plant DCS System from Advant Master to 800xA DCS system.

? HMI evolution and Logical development of Barbara Plant DCS System from MasterView to 800xA DCS system.

? Development of P & I diagrams in AutoCAD 2004 for FPSO-Saipem DCS System

Techno Crat, Chennai Jun 2006 – Jan 2007
Worked as an Engineering Trainee
Job Responsibilities:
• Designing of HMI in iFIX for Various Engineering Projects
• Developing Ladder logic, Sequential flow chart in Allen Bradley & ABB PLCs for various Engineering Projects
• Error handling and recommend practical cost effective solutions

QSOFTT systems, Trichy Jun 2001 – May 2003
Worked as an Computer service engineer

AREA OF EXPERTISE:
• Commissioning of Field instruments for Boilers, Turbines and its auxiliary instruments for Oil and Gas Plants. Refineries, steel plant and various industries.
• Design of Logical programs in ABB 800xA DCS along with AC800M and AC450 controllers for Oil & Gas Offshore and Onshore projects, Power plant projects and various plants.
• Loop checking for PLC's, SCADA and DCS for Oil & Gas plants and Power plant.
• Development of HMI and Graphical designs in ABB 800xA DCS and MOVICON SCADA for Power plants, Oil & Gas projects and various plants.
• Having good knowledge in IEC standards, Profibus, Field bus and Modbus.
• Having good knowledge in P&I diagrams.

ACADEMIC CHRONICLE
Anna University, Chennai
BE in Electronics and Instrumentation Engineering (2003-2006)
With 67 Percentage, First class

Shanmuga Polytechnic (SASTRA) – Tanjore
Diploma in Electronics and Communication Engineering (1998-2001)
With 73 Percentage, First class

SKILLS

DCS
800XA Programming, logical design and HMI Development

PLC Programming
Allen Bradley and ABB PLC's

Design and Development
SCADA (MOVICON and iFIX) and P & I diagrams

Protocols
Profibus, Foundation Fieldbus, Modbus and Ethernet.

Scripting Knowledge
C, C++, UNIX

OS And Office Suite
Windows XP, Ms Office

Personal Profile:

Name : Gnanavel.S
Date of Birth : 16-05-1983
Father's name : A.P. Shanmuga Sundaramurthy
Passport Number : G2588813
Marital Status : Single
Languages Known : English, Tamil
Nationality : Indian
Permanent Address : Old no.23-B, New no.65, Narasimmalu Naidu St., Trichy – 620008
Passport Status : 07/06/2007 to 06/06/2017

Declaration

I hereby declare that the above-mentioned details are true to the best of my knowledge and belief

Place: Yours Sincerely

Date:
(GNANAVEL S)
